Side Spoiler / Skirt (Left)	Scratch on lower edge	P1
Head Lamp (Right)	Lens crack — light broken, replace	X1
Legal case pending (if any)	Documents & Ownership	NO

DAMAGE MAP

INSPECTION OFFICER REMARKS & RECOMMENDATION

Front right fender repair with dry dents. Front bumper repainted (paint depth 238 um against OEM range of 90-140 um). Front right head light is broken and requires replacement. Front right tyre tread has reached 4.2 mm and should be replaced within approximately 5,000 km. Engine oil is due for change. Wheel alignment shows a slight pull to the left during road test. Frame and structural areas were fully inspected and found clean with no accident evidence.

Recommendation: GOOD TO BUY
